## Forward Tilt Automatic Unloading Industrial Washing Machine

**Forward Tilt 25 degrees.  
World No.1**

Most advanced design in the industry, stable running, long service life and convenient maintenance

- 1.The new generation separated type shaft seat system thoroughly solves water leakage issue and guarantees the normal service life of the equipment.
- 2.Variable rigidity spring and hydraulic damper suspension structure can absorb vibration by 99.9% and anti-eccentric load ability is as high as
